Textbook: *Sick Justice Inside the American Gulag*, by Goldman, Ivan G.

Course Description:  
The topic of mentally ill and/or chemically addicted (MICA) offenders is clearly at  
the forefront of the NJ legal systems development. The recent expansions of Drug  
Court and appointment of Mental Health Probation Officers are examples of this.  
MICA issues play a central role in getting people in the system. With the recent  
closing of psychiatric hospitals due to funding; prisons are becoming home to  
individuals with mental illness; when given the appropriate treatment would not  
otherwise be. Lack of treatment and resources leads to criminal activity. The drug  
addict that robs a home to get money for drugs or the untreated mentally ill person  
decompensating because of lack of medication and whose odd behavior leads to  
assaultive confrontation with police; which eventually leads to revolving door legal  
issues. There are programs developed specifically for military veteran offenders  
with PTSD, who have committed usually violent offenses related to their trauma  
often fueled by addiction. This course will focus on this population and treatment  
used with legal leverage. It will review the options available and resources provided  
by the state. Treatment and preventative measures while a person is in prison, or  
supervised release helps the community, and prevents recidivism. The legal system  
deeds to work and understand how to use these resources for successful  
rehabilitation.

Course Objectives:  
The objective of this course will be to develop an understanding of the dynamics  
behind the correlation between crime and mental illness, and the treatment  
alternatives to incarceration that are available. After successful completion of the  
course, the student should:

(A) have an accurate, detailed, understanding of identifying causes which lead to  
icarceration among individuals with mental illness
(B) appreciate and understand the value of learning offender perspective  
   And their ability for rehabilitation
(C) to be able to clearly distinguish between theory and reality of various  
   research regarding mental illness and the criminal justice system  
(D) understand the impact of current issues, challenges and trends have on  
   recidivism regarding untreated mental illness  
(E) to be able to understand the various agencies involved in community  
   supervision and the state laws which govern them
Final Assessment of Grades will be as follows:
50% Exams

30% Paper

Class Participation 20%

Class Participation is weighted in this course because it aids in the student’s ability to understand the impact of untreated mental illness and crime in our society. Also, an interactive approach aids in the student’s learning and creates an environment where an exchange of ideas is valued.

Included in the class participation grade is an oral presentation of one chapter from the textbook. You will be assigned a specific chapter to present to the class. The oral presentation needs to be accompanied by a typed hand-out, which provides an in-depth review of the chapter’s major themes and content. This outline will enhance your presentation and be part of your grade.

Cheating and Plagiarism
Don’t cheat. Don’t plagiarize.

Overview of Class Schedule, which is subject to change depending on the progress of the class: There will be numerous guest speakers and a field trip to Bo Robinson (DOC) Trenton, NJ.

Class 1: January 17, 2017
Discussion of course syllabus; students’ introduction

Class 2: January 24, 2017
